Advice About Rock Gardens

We are glad to help with any problems at any time, and can heartily recommend "My Wild Garden" and "Taming the Wildling" by Herbert Durand, and "The Rock Garden" by Lousie Beebe Wilder, as best authorities in Eastern United States.

For information as to the value for garden use of western native plants, read "Western American Alpines," by Ira N. Gabrielson. If you would like to climb our mountains and see our lovely wildlings in their homes, but cannot do so, take a trip at second hand with Dr. Gabrielson. You will find him most delightful company, and through his appreciative eyes will be able to enjoy and estimate them at their best. Order from me. Price \$3.50.

"Hardy Californicans," by Lester Rountree is equally valuable and interesting. It brings sixty-four photos of unusal native beauties, many of them offered in this catalog. Hundreds more are described and their real value and needs told by one who knows. Order from me. Price \$3.50.

"Rock Garden and Alpine Plants," by Henry Corrovon, of Switzerland, is undoubtedly one of the best in the world, and at the new low price should be had by all. Price \$3.00. Order from me.

Oregon Wild Flowers

Seeds—Seeds of many varieties can be furnished at 25c per packet. In ordering seeds, please list some substitutes that may be sent in case of shortage. Plants in this list are so rare that the supply is uncertain. Small packets, 5c.

Numbers (00) indicate height by inches.

The price for a dozen is ten times the price for single plants. Half dozens are sold at dozen prices. All are packed free of charge, and post-paid.

Our prices are cash with order, and we will send C. O. D. to reliable persons.

Small orders receive the same attention as large ones. Do not hesitate to write us if you only wish one item. Also, we will be interested to hear about the wild flowers growing in your locality. We make exchanges and buy desirable wild plants and seeds. We give a discount on large orders from parks, colleges, etc., and a trade discount to dealers. Write for wholesale prices.

Address all orders to Clarice Nye, Prospect, Oregon.

Native Plants Suitable for Dry Garden in Sun unless Otherwise Stated

	Ea	ach
Anemone Deltoides, purest white colors for	shade	.15
Baldensis, a beautiful light blue		
alpine, (10)		.50
Lyallii (4) pastel shades, requires		
acid soil in shade		.25
Occidentalis, Chalice Cup, milk white,		
ferny leaves		.50

Oregana, white with blue tints	40
Acid soil in shade required	
Pulsatilla, pasque flower	.35
Abronia latifolia, yellow sand verbena, creeper from sea beach, Umbellata, pink, seeds of both.	
Actea spicata var. arguta (30), nice foliage white fl. and red berries in fall. Shade best	25
	.00
Apocynum pumilum, pink fl. and leaves turning yellow in summer (8)	
Aquilegia formosa, scarlet and gold	.25
Long spurred hybrids, mixed colors	
Dwarf rock garden species, mixed	
Hoop petticoat, double in many colors	.25
Many types mixed, seeds of all.	
Arabis Lyallii, pink fl. for sh. rocks	.25
Purpureus, deep pink, very dwarf	.25
Armeria artica, deep pink (6)	.25
Arenaria caespitosa, a lovely mossy ground cover	
with tiny white fl.	.25
Aster alpina, not native, large blue	.25
Native, blue (6), (12) purple (15)	
Aster New Dwarfs not native,	
Countess of Dodley, bright pink	
Lady Henry Maddocks, light pink	
Lilac Time, lovely soft lilac	
Marjorie, bright rose pink	
Snow sprite, semi-double white	
Victor, clear lavender blue	
Mauve Cushion, only six inches high	
Aster Michaelmas Daisy	.20
Feltham blue, Novae Angliae, violet purple	
Perry's White, small stars with yellow center	
Mrs. Raynor, reddish; St. Egwin, pink	
Very large blue and semi-double purple	
Native blue from Oregon sea coast	
Arenaria Montana, close gray tufts with white	00
flowers in early spring	
Ajuga reptens rubra, red leaves, blue fl.	.15
Agrostemma coronaria, mullen pink, downy	15
leaves and deep rose purple fl. (15)	
Asclepias tuberosa, orange Butterfly weed	.20
Speciosa taller, with white leaves and pink flowers, not so showy (36)	15
Mexicana, more slender, pink fl. (24)	25
Antennaria rosea, flat gray leaves, pink fl. (3)	
Asarum caudatum green leaved ginger also listed	.20
with the bog plants	.25
Hartweggi, mottled leaved ginger, sh	
Lemmonii, similar but better	
Astragalus purshii var. tinctus, a desert pea that	
makes a little flat mat of pretty leaves	
decked with purplish red flowers. Later	
pods are covered with dense wool and on	
opening like a black beak with the shiny	
seeds like eyes appear like birdlings in a	
nest. Called wolly lambs. Seeds only.	
Artemesia abrotanum, Old Man, finely cut fol-	
iage, pleasantly scented (18)	.25
Artemesia species, name not known (18), stiff	
white foliage, yellow flower	.25

Boltonia, white asteroides, not native	
Boykinia elata and major for moist shade	
Brunella vulgaris (6) deep lavender	
Atropurpurea, deep purple	.20
Balm, Mountain, Eriodictyon Californica, called	
by the Spanish Yerba Santa. Dried leaves per oz. 15c; roots	.50
-	.00
Balm, Monardella, scented leaves and pretty lavender flowers	15
	.10
Buckwheats, see Eriogonum Callirhoe involucrata, trailing poppy mallow, a	
beautiful vine that will cover a space four	
or five feet across in any good situation	.25
Caiamintha alpina, not native but a very pretty	
plant with purple fl. (6)	.25
Chrysanthemum, pink cushion, dwarf variety	
that begins blooming in July and continues	
all season	
Yellow to rose, less than a foot high	.25
Calandrina umbellata, needs dry soil, a crimson	~~
purple flower opening in the afternoon (6)	.25
Calypso borealis (bulbosa) Fairy slipper, a beautiful pink orchid found only in shady woods.	
Soil and moss with bulb	25
Campanula Scouleri, (4) light blue lily shaped	.20
bells, for woodsy banks	.25
Species, probably a variety of the above but	
much more free blooming. Our name for it	
is Multiflora. Seeds.	
Rotundifolia, from Washington State	.15
Species, possible a variety of above but	25
smaller from Siskiyou Mts. (4)Castillija mineata (10) Indian Paint Brush	.50
showy in very dry situations in sun	.15
Carum Oreganum, white lacy flower (15), tubers	0
prized for food by Indians	.15
Chrysanthemum leucanthemum, white daisy	
with golden center, hardy and long bloom-	
ing (15)	
Coptis lacinata, yellow flower with varnished	25
fern leaves, pretty in dry woods (5)	.20
very pretty with its white Dogwood flower	
and red berries but is hard to grow. Re-	
quires acid leaf mold near water in shade	.25
Corydalis caseana, white flowers, ferny leaves	
Aurea, yellow,	
Cotyledon Californica, thick leaved rosettes	.25
Oregana, larger and whiter, neither hardy for hard freezing, found on sea cliffs	25
Cynoglossom grande, a lovely blue flower on	ں ہے.
a tall, coarse plant (25)	.25
Cypripedium Californica, a bog orchid with	
many cream white flowers, less finicky than	
these following but requiring moisture	
Montanum, large pinkish ladyslipper, shade.	
Fasciculatum, small pink and brown fl. (8)	.50
Darlingtonia Californica, the beautiful Western Pitcher plant. This is very desirable but dif-	
ficult to grow. I am told it succeeds if set	£
where it can have a constant supply of water	
containing ammonia25 to 1	.00

Delphinium Andersoni, blue. Seeds only (24).	
Columbianum, a beautiful deep blue (12)	25
Menziesii, deepest purple blue with white	15
bee and spotted leaves (6)	19
Parrylii, blue, seeds only (24)	
Parishii, white to purple. Seeds only	
Scopulorum, very tall, purple blue, for moist	
soil in shade	00
Dentaria Californica, very early bloomer, white	
bell shaped flower round dentate leaf (5)	
called Spring Beauty here	1 5
Macrocarpus, larger, from Siskiyou Mts	
Tracyii, lavender with purple leaves	15
Dicentra Formosa, plumy bleeding heart, beauti-	
ful foliage	15
Oregana or Glauca, silvery leaves and crean:	
flowers with purple tips	50
Douglasia laevigata, cutest alpine	5 0
Digatalis, (4 to 6 feet) Fox Glove, many colors	
Dodocatheon Alpina, (6) prefers moist situation.	.50
Hendersonii, (6) a beautiful rose to crimson	
primulacae, blooming very early in the	-1 F
spring. Good in the rock garden	.10
Jeffreyii (12) a later bloomer called Sierra Shooting Star, light pink	25
Epipactus Gigantea, for moist shade	.20
Erigeron Radicatus, (2) deep blue or purple, free	25
blooming	
Folicosus var. compositus, (6) light blue	
Salsuginosus, (10) large Alpine daisy	
Glaucus, very dwarf, large flowered	
Species from the coast, covered with large	
blue flowers in autumn, similar to Michael-	
mas Daisy	.25
Evening Primrose, see Oenothera	
Eriogonums are fine for the rock garden. Dry	
situation. Seeds best as they are hard to	
transplant. Flowers are in clusiters and	
dry perfectly for winter bouquets. Dry	
sunny sit.	
Compositus, cream white in four to six inch	
clusters. Seeds only. Douglasi, yellow flower. Plant, a fine thick,	
neat, gray white foliage. Seeds only.	
Nudum, (18) white flower on slender stem	.25
Sulphureum, Same but yellow	
Umbellatum, (6) large yellow flower	
'Species variety of above, red flowers. Seeds	
only.	
Ovalifolium (3) everblooming alpine pink	.50
Species. Wild Pink Buckwheat, a beautiful	
late annual. Seeds only.	
Eriophyllum	05
Innatum, green foliage, white beneath	.25
Ceaspitosum, (8) Oregon Sunshine, yellow flower, white foliage	15
Species, (4) felty white foliage, Alpine	
Erysinum aspernum, (12) Western Wall Flower,	.50
yellow	.15

Ferns

Very dwarf ferns suitable for rock garden.
The roots should have a nice pocket of.
soil well protected by a large stone to
conserve moisture and thus they will face
full sun.
Chelianthes Gracillima, (5) lace fern, dainty,
clump
Cryptogramma Acrostichoides, (3) parsley
fern
Gymnogramme triangularis gold fern (6)
Pellaea brachypteris, (6) evergreen fern,
like a sprig of fir
Woodsia Oregana, (5) very dainty and fra-
gile. Drys down in summer, reappearing in early spring
Lomaria Spicant, the Deer fern for moist
shade
Pellaea densa, the daintiest and also the
hardiest dwarf fern
Filin-fragilis, a delicate little beauty, a bit
larger than Woodsia Oregana
fers a mossy stone for a home
Larger Ferns
Polystichum Lonchitis, Holly Fern, a love-
ly evergreen fern for shade only
Polystichum Munitum, large sword fern
Polystichum imbricans, small sword fern for
dry rock garden
Pteris aquilina var lanuginosa b re aken, for a shady spot. This makes a tall back-
ground
Dryopteris Arguta, (18) evergreen shield
fern
Asplenium felix-foemina, lady fern, moist
shade. Each
very large, requires moisture and shade.
Each
We have many other nice ferns not yet classified.
Write us your wants.
Fragaria, wild strawberry from beach, glossy
leaves, red runners, nice berries
Gentiana Affinis, a very nice little gentian with very dark blue flower, freely borne, moist soil35
Species probably variety of above. Large,
free-flowering, for dryer soil. As many as
eight large striped upturned bells open
at one time
Our name for the above is Multiflora for
its freedom of bloom Nye's New Florenciana, a fine variety we
have been unable to find described. It is
a lovely deep dark blue and likes a black
bog soil by a mountain brook
Newberryi, a rare, low-growing large flow-
ered sort, a fine deep blue (3) 1.00
Orfordii, (24) a taller sort with several nice, medium blue flowers
VU

Geranium incism (Fremonti) needs shade. Flow-
er large purple pink (25)
Richardsoni, large pure white (24)
Gilia aggregata, scarlet gilie flower or trumpet phlox, nice dwarf cut leaved plant that runs up to three feet with many bright but dainty flowers, the second year (8-20)
Pungens (Leptodactylon) a little beauty nearly like Phlox Douglasi
Nuttallii, White, night blooming
This is interesting but not so beautiful. It is a desert plant.
Goodyera Menziesii, mottled green and white
Gormania Watsoni or obtusatum (6) white flow-
er, a plant very nearly related to the Sedums and as good for dry or moist rock
work
nice
damp-lover. Blooms very early
ers, begonia-like leaves which color nicely25
Glabella, green leaves, good for dry rock work .25 Hulsa nana, (4) sun flowers large as a dollar
with ruffled hairy leaves. Sand in full sun on mountain tops. Seeds on'y.
Irises. Our native irises should have the care
of any fiberous rooted plant. Are not so
hardy, as those with large rhizones. After
becoming established they will endure as
much hardship as ordinary perennials.
Bracteata (12) Yellow, heavily veined with
maroon. Leaf long, deep green
Chrysophylla, white or cream with very dainty tints and veining (6)
Californica, varied colors (6)
Douglasiana, the beautiful iris, so plentiful along the Oregon Coast where it is found in every shade of light blue, orchid, lavender or white. (18)
Cristata, a lovely light blue dwarf from
North Carolina (5)
to eight inches high. Foliage narrow and
deep green. From dry rocky hillsides 1.00 Gold River, a variety of the above still smaller and a beautiful orange in some speci-
mens
Sunset, a slightly less yellow form. Seeds only. Hybrids Innominata x Chrysophylla. Seeds and plants 1937 autumn
Hybrids Chrysophylla x tenax. Seeds only.
Missouriensis (18) white or light blue lined
with blue. Moist soil, alkaline

Tenax. This is one of our best as well as most varied in color coming from white to
deepest blue and rarely in lilac and or- Thompsoni. This is a lovely little thing of-
chids, falls ruffled
as I. delight but Prof. Thompson of Seattle had beaten us; we hereby give him
credit and he allows us to be the first to offer it under his name. It is a lovely orchid and forms a dense mat of narrow
green foliage, quite distinct
only a line wide and very sparse. Stems wiry, six to nine inches high
ing and have proved hardy here. Burnt orange and blue
Versicolor, native blue iris from Wisconsin25 Juniperus—see tree and shrub list.
Leucocrinum montanum, pure white sand lily,
clump
Lewisia—The evergreen varieties are often listed
as Orebroma and include all except redi- viva and oppositifolia. These are our very
best rock garden plants requiring good
drainage and full sun, but not south ex-
posure in California. Roots should have
good protection under large rocks, and no irrigation. Coarse sand or broken rocks around the plant on surface to prevent
damping off. Columbianum, has narrow leaves and small
flowers. This bloomed the whole summer and fall in my rock garden. Flower white25
Columbianum var. rosea. Pink
Cotyledon, slender leaved rosette and white flower, veined pink
Finchii, one of the best. Have counted over five hundred florets from one plant in a season. Striped pink flowers
Nye's new variety of Finchii, still larger
with a clear pink flower
Howellii, leaves of the rosettes, ruffled and crested, flower deep rose striped with
Ingramii, a variety of Howellii, equally good .35
Leana, narrow leaved evergreen plant flower a many blossomed spray
Nye's Dwarf Rose variety of above with larger semi-double flowers on short stem and of a fine bright rose
Eastwoodiana, very similar to above but
pure white. Very rare
spearshaped leaf1.00

Seeds, 5c each.	
Tweedyii, largest and one of the loveliest of this family. Very long blooming. Color, peach to salmon pink. Seeds 5c each.	
Large plants	1.00
Smaller50 and	.75
New Varieties—The following are offered as Howellii var. Nelson Nye, large, intensely ruffled rosette with light creamy pink to almost white flowers on long stems	50
Millardii, large, handsome rosette of broad- ly spatulate leaves, slightly ruffled. Flow- er similar to L. Finchii and freely borne	50
Longifolia, leaves very long, narrow and thick only slightly ruffled. Flowers lemon yellow white to creamy pink borne on extra long stems. Distinctly different	.50
Mariana is of the evergreen rosettes variety, foliage dark in color, flower yellow and white with some pink, very striped. It is almost everblooming with me	.50
Crenuata, a dwarf variety of Howellii with a fine ruffling all along the leaf and light creamy pink to white flowers	.50
Decideous Varieties Rediviva (3) Bitter root, the state flower of Montana. This looks more like a beautiful pink waterlily than a desert plant. It is the first of this lovely family of western plants and was discovered by Merriweather Lewis and is named for him. Thrives in dry soil	•
All the following need moist soil until after blooming. Brachycalyx, very pretty pure white	.40
Seeds 5c each. Nevadensis, smaller than above	.15
Oppositifolia, similar to above but with flow- ering stems about six inches high	.15
flowering than the aboveTriphylla, very pretty but a well grown plant	.25
in bloom is not much larger over than a silver dollar. Pink flowerLewisia Species, fine distinct new ones not	
yet named. While they are in stock	
er than L. Perrene (20)Linneae Borealis var. Americana, Twin Flower Vine	
Lupinus Lyallii (4), the tiny gray-leaved Alpine which blooms the whole season. Seed is	
Minimus (9), very free blooming	
Ornatus (12), silver-leaved lupineArboreus the beautiful tree lupine with yellow flowers. Seeds only.	
Breweri, very dwarf with white leaves and nice blue flowers	.25

Chamissonis, blue tree lupine. Seeds only Rivularis, a tall variety growing by streams	
has long bloom spike and handsome	
bronzy leaves, seeds and plants	.35
Annual varieties are good for broadcasting	
and seed prices will be gladly supplied.	
Lupines are very good for roadside planting	
and for cut banks. They are good to hold	
soil with their long roots and are very hardy.	
Lithophragma affinis, white woodland star	.15
Tennella pink	
Lutkea pectinata (4), make a lovely green mat	0
in a moist spot in rocks. Spreads quickly.	.35
Monardella villosa, a free flowering mint (7)	.25
Micromeria Douglassii vine with scented leaves;	
nice in the rock garden	.15
Mertensia laevigata, a large blue bell (16)	
Montia parvifolia, dainty white flower, always in	
bloom (6)	.15
Oenotheria tricocalyx, Desert Primrose; opens	
pure white and changes to pink. Sandy	
alkali soil, well drained in sun (6)	.30
Sun cups; day blooming; yellow (10)	.15
Oxalis oregana, pinkinsh and pretty	.15
Oreobroma—see evergreen Lewisias	
Paeonia Brownii, (8) our only native peonia and	ı a
dwarf adapted to a rock garden; large	
red flower	.50
Parrya (4) a pink flowered deep rooting plant for	ınd
where there is some moisture on the edge	
of the desert. Seeds only.	
Pedicularis densiflora. Indian Warrior. Very	
handsome but hard to tame	.50
Pentstemon Azureus (8), a lovely flower freely	
	.35
Cardwelli (6), shrubby creeper, very free	
blooming, flower brightest blue	
Centranthifolius (36) scarlet bugler	.25
Cordifolius, climbing scarlet trumpeter. Seeds	
only.	
Corymbosus (18) shiny leaved shrub. Seeds	
only.	
Davidsoni, very dwarf, blue flower	
Glaber (8) larger flowered blue apline	
Heterophyllus (15) very long blooming blue.	.25
Jaffrayanus (6) deep blue alpine. Seeds only.	
Laetus, medium blue (10) very hardy	.15
Menziesi (6) shrubby evergreen creeper with	
	.3 5
Rupicola (6) gray leaved shrubby creeper	
lovely rose crimson flowers, very nice	
	.35
Procerus, blue clustered penstemon	
Roezli deepest blue (15)	.25
Speciosa (36) very long spike of levely	
blue flowers	.25
Tolmei, a tiny dwarf of the clustered group	
from our highest peaks	.50
Phlox adsurgens (5) evergreen creeper with	05
,	.25
Douglasi (3) Alpine phlox forms a dense	EV
Hoodi equally low growing with white fl	JU.

Speciosa, slightly shrubby with sparce leaves but beautiful pink flowers	.35
Species from Klamath County, doubtless a var-	.00
iety of P. Douglesi but over many	
iety of P. Douglasi but even more dwarf	
and compact with lovely pink and orchid	
flowers nearly hiding the deep green	
mossy plant (2)	.50
Subulata atropurpurea, not native but very	
good. Vivid, bright pink. Both are creepers	
and make a presentable plant when not	
in bloom and a mass of color covering the	
entire plant when blossoming in early	
springspring	25
Decussata too tall for the real gooden	.20
Decussata, too tall for the rock garden as a rule	
but a very fine plant where height is right.	
Miss Lingard, pure white early bloomer with	
deep green shiny leaves (15)	.25
R. P. Struthers, deepest pink with red eye	.25
Amy Gordon, named for my great grand-	
mother and from her garden. Florets are	
small but are in large clusters on four	
foot stems. Color white tinted orchid	.25
Mixed seedlings, many colors, doz. \$1.00, ea.	.15
Pipsisewa (Chimaphila) Prince's Pine, hardy for	
cold and drouth and good for naturalizing	
under evergreens. Flower pink. Evergreen	
and much used for decoration. Also medi-	
cinal and can be cumpled dried	~=
Cinal and can be supplied dried	.25
Phoradendron, mistletoe, berries in season, pk	25
and sprays for decoration, post paid,	
per lb.	.25
Potentilla anserina, Silver Weed, creeper spread-	
ing by runners, fl. deep vellow	15
Fruticosa, Cinquefoil, Shrubby with many	.10
nice yellow flowers (18)	35
Gracillis, rather weedy but pretty (14)	15
Flabellifolia, a dainty and beautiful alpine	.10
Polemonium Carneum (10) largest flowered of	.50
our Jacob's Ladders and of a beautiful	
pink	05
Confertum var eximium very dwarf blue or	.35
white flowered alpine cutie. Seeds only.	
Occidentale (18) Needs a brookside place	0-
Pulcherrimum (2) a very beautiful l	.35
Pulcherrimum (8) a very beautiful blue al-	
pine form very free flowering at home	
in dry rock work	.35
Ranunculus glaberimus (4), Sagebrush buttercup	
deepest yellow flower, very early	.25
Californicus (12) very early bloomer	.15
Occidentalis (8), better than last	.15
Creeping double, only a few inches high.	
Spreads quite fast but very pretty. Not	
native	.10
Ribbon grass, bulbous, only grows 4 inches	
nigh and does not spread fast	.15
Ribbon grass, tall, pink, white and green	.15
Rubus Nivalis, rare creeper requiring acid soil	-
and deep shade. White flower, red her-	
ries and crisp varnished leaves	.50
Romanzoffia Californica (6) for a mossy snot	
in shade. Flower white	.15

Rudbeckia Californica (50) a tall native with	
long glaucous leaves and lemon yellow	
flowers with high purple brown center	
Golden Glow, double golden yellow (72)	
Purpurea, purple cone flower (36)	.25
Saponaria ocymoides, nice creeper with bright	
pink flowers. Spreads quite fast (4)	.15
Double light pink fragrant (16)	
Both are not native.	.20
Shamrock, brown clover from Ireland	15
Sidalcea Oregana, tall wild hollyhock	.15
Californica, dainty pink fl. (10)	.15
Saxafraga Eastwoodiana, moist, mossy rock-	
work in shade. Very rare	.75
Species with tiny brown notched leaves	
and pretty white flowers. Same situation	F0
as above	.50
Mertensiana (6) white flower	.15
Peltata (36) with very large round leaves	
suggesting the name of Umbrella Plant.	
Flower pink in large cyme, early in spring.	
Needs a water margin soil	.50
Tolmei, a dainty white flowered alpine with	
shiny beadlike foliage resembling a tiny	
sedum, found at base of glaciers. Roots	
very deeply so seeds are best.	
Sedum divergens, slender upright or reclining	
branching stems with beadlike leaves	15
_	.10
Var. Rattlesnake moss, larger than above	
both with starry yellow flowers	.15
Douglasi, tiny green rosettes, nice in winter	
running up 3 to 8 inches high with whit-	
ish flower. New plants form on stems of	
old and spread freely	.05
Radiatum, very similar to above but yellow	****
flowered	05
Obtusatum, thick whitish leaves turning	.00
bronzy in fall; flower white with red	
	15
brown center. Sun, dry soil	10
Oreganum, close rosettes of bright green	
turning reddish, yellow flower, best in	~~
	.25
Nevadensis, larger gray green rosettes with	
angled ends of leaves, flower white, red	
center; sun	.25
Purdyii, flat shiny rosettes of brightest	
green connected by red runners, yellow	
flower. One of our cutest sedums. Must	
have shade	.25
Species with equally flat gray green rosettes,	
larger and taller stems with starry yel-	
low flower, shade	25
Spathulifolium, a long name stretched to	0
cover a multitude of variations. Often the	
last before and the two following. As we	
offer it the rosettes are small and white	
changing color with the seasons. Flower	
stems 2 to 4 inches and blossom nice yel-	
low. Very good in sun or light shade on	
dry rocks or any place	15
Woodii, very small with deeper yellow flow-	
ers	25

Cape Blanco, very white larger rosettes with light yellow flowers from sea cliffs, sun	
or shadeStenopetalum, low growing yellow flowered	.15
Species, green, thick leaved, low growing with red margin in spring and silver line	.15
Species gray green blossom stems thickly leaved appearing to be a button string,	.25
flowers pink Sedums not native here	.25
Sedums acre, mossy green carpeter at blossom time, pure gold almost without a touch of green	.15
Acre minor, still smaller	.15
Angelicum, tiny flat carpeter, pinkish fl Altissimum treelike with yellow flower (8) Brevifolium, very tiny glaucous foliage	.15
Glaucum, tiny gray, bluish foliage, white flower	
Coccineum, white flower, leaves turn red Kamtschaticum larger (4) with orange flower	.15
Kamtschaticum variegatum, green and	
Reflexum cristatum, upright grower, very odd	
Sexangulare, a tiny angled one with yellow flowers	
Spectabile, Live For-ever, tall, pink fl Stellaris, a nice little one with white	.15
Spurium, white flower, broad notched leaves Spurium coccineum, red flowered (6)	
Sempervivems, not native here, but a very fine group of plants for the rock garden. They do not compare favorably with Lewisias from any point except hardiness and rapid increase but they are of the very	
Arenaria, bright green, tinted red in winter Atrapurpureum, very large purple rosettes. Fimbriatum, slightly hairy. Laggeri, larger cobwebs or with pink flower. Pallidum, light blue green Tectorum, old stand by Hen and Chickens	.15
Violaceum, deep purple. The seven varieties\$	
Twelve unnamed varieties Scutellaria angustifola is not the large plant its name implies. It is only about six	1.00
inches high, with a deep blue flower	
Tuberosa, still small with light blue flower Silene Hookeri downy leaved fringed pink. Salmos	
pink needs deep soil among rocks	.25
White form of above, very rareIngrami, sometimes considered a variety of	
S. Hookeri, but taller and very deep pink Californica, brightest red, very showy Sisyrinchium Bellum, blue-eyed grass, moist	
soil	
	. 10

Grandiflorum, larger, satiny, spreading bells	4 P
of a beautiful crimson-purple, sun	.15
Grandiflorum var. with light pink flowers,	.15
D WII	
Solidago elongata, golden rodSpergula, green mossy carpeter with white flower	25
Spragua umbellata, pussy-paws, grows flat on	.20
the ground, flowers white to red, water-	
melon scented	.15
Multicaps, many headed or rosetted. Turns	
a nice reddish color	.25
Synthyris rotundifolia (3) Hope o'Spring, Sleigh-	
bell, or Spring Queen, all names of a well-	
loved little blue flower which comes first	
01 01	.15
Reniformis (6), more showy light blue flower.	0~
Both plants very nice and like shade	.35
Sweetseri, var. of rotundifolia with long	25
leaves and deep blue flower	.55
rock garden in sun. Flowers freely borne	
and very dainty pink	.35
Tellima odorata, (12) large begonia-like leaves	.15
Tiarella unifoliata, spray of tiny white flowers,	
prefers moist shade	.15
Triontalio latifolia, pink star flower, a tiny pri-	
	.15
Thymus, the old fashioned thyme not native	
with us but so good we have adopted it.	
Creeper in winter with dainty lavender fl	.10
Citriodorus argetteus silver and white (6)	
Citriodorus aureus, green and yellow leaves	
Langinosus, wooley prostrate foliage, pink fl. Tradescantia virginica, blue, native in Wisconsin	25
Pale blue from Texas (9)	
Brevicaulis, pink (6)	
Valeriana sylvatica (9) pinkinsh, more dwarf	
and better than V. stichensis. We can sup-	
1 0	.35
Vancouveria chrysantha, leathery leaves yellow	
flowers	
Hexandra ferny leaves, white flowers	.25
Veronica incana, white downy foliage, deepest blue flower (4) Not native here	25
Viola adunca, blue, very long blooming	
Blanda, tiny white	
Brooksii, yellow, dry rock garden	
Chrysantha or Douglasii, deep yellow	
Cuneata, one of the cutest violets. White	
with blue eyes and back	.25
Hallii, sweet-scented purple and cream. Our	
finest native violet	
Palustris, pink and lilac, for wet meadow	.25
Pedunculata, Yellow Pansy, a very fine deep	05
Color	
Nuttallii, Downy Johnny Jump-up Praemorsa, similar to above, but a paler	GI.
-	.25
Occidentalis, long-stemmed white, for water	.20
margin only	.25
Glabella, yellow	
Lobata, yellow	

Sheltonii, cut-leaved, yellow
Trinervata, a rare lavender variety from
Eastern Washington
Howelli, very near adunca, but of a deeper
blue and very long flowering
Langsdorffi, light blue for moist soil and
deep shade (6) very rare and lovely
Not native here
Alpina, deepest dark blue, pansy foliage
Papilionacea, nice purple blue, very thrifty15
Papilionacea var. priceana, white Peacock
violet
Prince of Wales, nice long stems on these
and the last two flowers very large, pur-
ple
Odorata, purple blue sweet scented
White sweet scented, early
Czar, nice single white, medium length
stems, very free flowering
Canadensis, white violet from Oklahoma15
Veratrum, a tall (60) plant with broad leaves
and large cluster of white flowers belong-
ing to the lily family, seeds. Roots 1.00
Xerophyllum tenax, Elk Grass, Squaw grass, a
beautiful shiny grass with a flower like
a white plume three to five feet high.
Good plants75 to 1.00
Zauschneria Californica, often called hardy fuchsia
Bright scarlet flower late, in bloom to
frost. This is a spreading vine that will
cover a larger space in dry rock gar-
den
Latifolia just slightly more yellow a shade
of scarlet and of upright growth
Makes a neat little shrublet in form.

Roezlii, orange, similar to above
Pardalinum, closely related to the latter40
Parryi, a very nice yellow lily, requires moist
soil; rare
Bolanderi, a small deep red lily suitable for
the rock garden
Occidentale, extremely rare red lily; moist
location 1.00
Seeds-We strive to secure all the seeds we can of
these and other native lilies. Price per pkt25
Frices on larger quantities on request.
BULBS FOR THE ROCK GARDEN
Dry Soil in Sun Unless Otherwise Stated
Allium Acuminatum (6), deep red
Falcifolium (3), large flower, bright red50
Mixed, many kinds and colors
•
Unifolium, lavender pink
Cernuum, nodding onion
Falcifolium var. demissum
Brodiaea congesta (16), blue flower
Coccinea (14), the firecracker flower1.00
Grandiflora (coronaria) harvest brodiaea.
This hardy midsummer bloomer rivals the
gentians for color. A wonderful blue
Lactea (12), white with green stripe
Laxa, large blue flower
Ixodics (6), yellow with purple stripe
Camassia Esculenta (12) light blue wild hya-
cinth
Leichtlini (16), deep blue hyacinth
Leichtini alba, white hyacinth (3)1.00
Calochorte are the wild tulip of the west and are
more varied and charming than the tulips of Hol-
land. They will grow well under almost any garden
conditions and are excellently well adapted to the
rock garden. Care should be taken to keep them
from irrigation in late summer as they are naturally
dormant at that time.
Doz.
Calochortus Amabilis, deep yellow globe tulip50
Albus, white Fairy Lantern, very dainty
Amoenus, the beautiful pink fair lantern
Lilacinus, very dainty one without hairs,
moist soil
Maweanus, cat ears, pink with hairs
Mariposa types with large flowers on taller
stems.
Nitidus, hardy Mariposa from Idaho, lovely
lavender, distinctly eyed (12-18)1.25
Macrocarpus, another hardy one, from East-
ern Oregon; will stand 20 degrees below
zero. Very tall plant, many lavender flow-
ers1.25
Vesta, white flowers usually tinted with
lavender and pink 1.00
Venustus Citrinus, yellow with black eye
Venustus El Dorado, colors varied from
white to deep claret red; the very best60

10
Erythroniums are very easy to naturalize in
woodsy conditions and are good in the
blub bed or the rock garden. They are a
charming lily and often but erroneously
called Dog Tooth Violet. Herberd Durand
calls the spotted-leaved varieties Trout
Lily, and John Muir calls them Fawn Lily.
Both names are good. They are not fussy
as to soil or situation and come readily
from seed.
Doz.
Giganteum, cream white
Grandiflorum robustum, bright yellow
Citrinum, cream turning pink, lovely
Johnsonii, large pink, very fine1.00
Hendersonii, lavender with maroon center
Klamathensis, light lemon with pink tips1.00
Parviflorum, light yellow
Pink beauty, a fine new one1.00
Fritillarias are at home in the rock garden.
All but Lancelota require well-drained
situation and it is good anywhere.

	Doz.
Recurva or Red Mission Bell	1.00
Lancelota, green lily	1.00
Pudica, yellow bell	1.00
Trilliums prefer shade and moist soil. Go	ood
among ferns in a shady corner.	•

102.
Sessile Chloropetalum, large white flower1.00
Petiolatum, Rubrum, opens red1.00
Ovatum, opens white and changes to red.
Many most beautiful shades in a clump at
one time. Large
Rivale, small and dainty. White specked
with maroon. This is good in the rock
garden as well as the moist shade1.00
garden as well as the moist shade1.00

BOG GARDEN PLANTS

Each
Aconitum Columbianum (36), purple monkshood .15
Arguta rubra, white flower, red berries
Asarum caudatum, wild ginger
Aracea lysichiton, very large plant with yellow
calla-like flower. Slightly bad odor, small.
Each
Larger1.00
Cornus Candanese (3), Bunchberry, Partridge
Berry
Orchids.
Habernaria dilatata (18)
Spiranthes romanzoffiana, Twisted Ladies'
tresses
Peramium decipiens, Rattle snake plantain,
not too wet
Epipactus Gigantea
Mimulus Lewisia, the beautiful rose crimson
monkey flower of our highest alpine
water gardens (12)
Primuloides, very tiny yellow
Luteus, sweet scented (10)
Parassia palustrus (12) dainty white flower35

Pyrola bracteata, glossy leaves and lovely pink flowers	.35
Viola occidentalis, palustrus and blanda are at home in the bog garden and glabella, Howellii and Langedorffi on its margin.	
Prices elsewhere.	
Japanese Iris are water lovers and make a a good back ground for the pool. We can supply the following named and have a nice lot of fine seedlings and lost name	
varieties we offer at 25c each or five for \$	
Clarice Childs, petunia violet	
Eleanor Parry, Claret red	
T. S. Ware, reddish violet	
Yedo-jiman, dark royal blue	
Red Riding Hood, amaranth	
Other Water Irises	.20
Siberica, deep blue or white	.25
Very tall deep blue	.25
Speiria monneri, tall yellow	.35
Water poppy, small yellow flowers	.15
Nymphea, three fine varieties	1.00
Nymphea, mixed many varieties4 for	1.00
Parrots feather, ferny Pickeral weed, upright grower (24) with	25
bright blue flower	
Sagittaria, white flower, arrowhead	15
Mossy pumice and waterworn or lava stepping stones can be supplied. Prices on request.	
SHRUBS AND TREES	
Arbutus Menziesii Madrone, broad-leaved ever-	
green, white flower, red berries in autumn. Price	1.00
Arotostaphylos Manzanita, evergreen shrub with beautiful bell-shaped pink flowers. Hardy	20
to zeroGreen Manzanita, deeper pink flowers	
Ura-Ursi, Red Bear-berry Berries, bright	
red	1 .25
Azalea occidentalis. This is easily one of the best three Western flowering shrubs, possibly	
being surpassed by its relative Rhododen-	
dron Californica and Romneya Coulteri	
for beauty of bloom. But it is so much hardier and more likely to succeed it is	٠
a much better investment. The flowers	
are very sweet scented and are freely	
borne for long season beginning the last of May. The milk white to yellow and	
pink flowers are in clusters often very	
large. The foliage is glossy and colors	
beautifully in autumn. They are decidous and hardy but require a moist soil, acid	
preferred. Nice seedling plants, mixed col-	
ors	30
Larger, prepaid	1.50

Pink or yellow, ea	.50
and up, according to size. Small sizes of	
all 6 to 8 in. with plenty of root and	
branches.	
Berberis or Mahionia	
Aquifolium, tall Oregon grape, yellow flower,	
blue berry	1.00
Nervosa, fern leaved, for shade30 to	1.00
Cornus Nuttallii, Pacific dog wood. Large pure	
white flower. Often blooms in autumn as	
well as early spring	1.00
Ceanothus Arboreus, whie flowered, broad	
leaved evergreen; makes small tree. Seeds	
only.	
Ceanothus Interrigimus, wild lilac, covered with	
dainty sweet-scented flowers of many col-	
ors, blue prevailing	.15
Ceanothus Prostratus, a lovely evergreen creep-	
er, lavender	.50
Ceanothus, Prostratus var., divergenus, one foot	
high, lave n der. Seeds.	
Ceanothus Pumila, very flat carpeter, varied	
flowers	
Grossularie Roezli, fuchsia flowered gooseberry.	.30
Philadelphius Lewisia, mock orange, scented	
white flower	.15
Rhodendron Californica, beautiful state flower	
of Washington. We can supply fine little	
seedlings of these carefully handled and	
well packed, but cannot warrant them to	
grow. Small plants 6 to 10 inches high,	
at 50c each. Larger at proportional higher	
prices. Very good plants with soil on roots,	1 50

flower, red purple foliage	10
Dwarf, but not creeping, sometimes called	.10
Shamrock. Is of European origin.	
Oenothera species from Louisiana, but proved	
hardy at 14 degrees below zero. Spreads	
underground very rapidly in good soil.	
Flower a very dainty pink cup in bloom	
all summer. May be planted in bottom-	
less pot to prevent spreading	15
Dicentra formosa, while not a creeper is a	.IJ
rapid spreader and fine in a shady spot	
where ferny foliage and continuous pink	
flowers are desired	15
Veronica spicata (15) bluest blue	

Dentaria Nyes, New, deep rose, smooth oval	05
tubers, each	
Erythronium Californicum, cream	
Revolutum, pink, fine	75
Toulumnensis, yellow	.1.00
Liliums. We have below some lilies to offer you	
that are so new we cannot give them a name	
that may not hereafter be changed.	
Peacock Lily is probably a hybrid of Columbiants of Polandari Floryon fine door and	
bianum x Bolanderi. Flower fine deep red, barely recurved, foliage handsomely	
bronzed with height of a tall Columbianum, seeds, pkt.	50
Bulbs	
Del Norte Lily. This may be the lost L.	0,00
Howellii. It is orange to red and is a	
hillside lily with a bulb like L. Bolanderi,	
flower larger and more open bell shape	
slightly recurving. Seed, pkt.	.50
Bulbs	
Siskiyou Lily. This may be L. Pardalinum	
Johnsoni, very recently found in Canada.	
It is a pure rich yellow with very small	
dark specks, revolute and a moist soil	-
plant. Seeds, per pkt.	.40
Bulbs, in limited number only\$	
I have been unable to obtain a botanic	
description of the Canadian lily as it was	
only offered for sale first this year, by	
an English firm. We hope to have another	
new lily to offer in a few months. If in-	
terested let us hear from you.	•
Cypripedium pubescens, yellow lady-slipper from	
N. Carolina, each	
Gentiana Andrewsi, closed gentian	
Dicentra Glauca, pink flowered	
Chrysantha, yellow, rare	
Cucullaria, Dutchman's breeches	
Parviflora, our rarest alpineUniflora, very tiny	
Disporum Hookeri, Oreganum and Smithii, ferny	
plants for bog borders, each	
Diplacus aurantiacus, shrub mimulus with or-	20
ange flowers for dry rocks	.50
Mimulus cardinalis, fiery scarlet, for wet soil	25
Guttatua, large clear yellow	
Mertensia oblongifolia, lovely dwarf	
Narthacium Californicum, yellow bog asphodel	
(24)	
Tolfieldia occadentalis, white	.25
Uvularia Grandiflora, Merry bells	25
Adiantum pedatum, five finger fern	35
Emarginatum	
Aspidum spindulosum var. dilatatum	
Aspidum Nevadense, Sierra water fern, sweet	
scented, for moist place	
Asplenium trichomanes var. vespertinum dwarf	
Spleen wort, very cute	
Pellaea Breweri	
Ornithopus, bird's foot fern	
Andromedaefolia, coffee fern	
Polystichum aculeatum, bristle fern	
Scopulinum, dwarf alpine fern	50

Woodsia scopulina, small alpine
Polypodium Scouleri, leather leaf fern
Botrychium silaifolium var. Californicum, Grape
fern for bogs
Goose Wheat. This wheat was found in a wild
goose's craw. Kernels were so large they
were planted. It has proved immensely
productive and we can now offer oz.
packets for fall delivery at
Bean, White Kentucky Wonder, pkt
Bean, Brown Manchurian Bayou, a hardy,
early bearing bean for winter use, that
cooks easily and is of extra quality 4 oz10
Pkt
we have ever eaten, fresh or dried. It is
early and bears heavily. $\frac{1}{2}$ lb
Pkt
Squash, Table Queen, for baking these are fine.
Small but many on a vine and keep well .05
Field Corn. Early Missouri Dent. prolific and
early. Lb
Pkt
White Early Dent, the earliest dent corn we
have ever tried. It was planted with the
last sweet corn for late crop and matured
perfectly. Our elevation is over 2400 ft.
and our nights cool.
We have only a limited amount of either
of these good corns to offer this spring but will have plenty next year. Lb
Pkt
Golden Groundcherry. We have grown this for
fifty years and are often told it is better
than yellow groundcherry usually is. We
make them into pies and sauce as well
as preserves. Sow where it is to grow. Pkt05

ROCK GARDEN LORE

For many years I tried with small success to grow wild flowers. Then I learned of the rock garden idea. I began at once with an apron full or rocks and a bucket of dirt. It was a success and a joy from the first. Drainage is one of the most essential points. Arrange your rocks to allow drainage and to conserve moisture. Always use acid soil for wood dwellers and alkaline for desert plants. If your soil is heavy or clay, use crushed gravel, broken crockery, brick or plenty of sand. Peat moss is highly recommended but I have not yet tried it. If you collect your own plants carefully note, whether they grew in sun, shade, wet or dry, soil black, leaf mold or sandy and duplicate these in its new home in your garden. If you buy your plants, read the requirements given in the catalog and heed them. It is a great deal more fun to succeed than to fail. Wishing you all success I am,

Sincerely and Cordially yours,

Clarice Nye, Prospect, Oregon.
